Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, November 1.—Tō-day's stock market developed a decidedly spotty oharacter. The railroads fell into the background again and the highly speculative industrials were brought forward into activity. An effort was made to continue the campaign against the shorts in the iron and steel stocks but the higher prices in this group brought out such large sales that the efforts to advance prices had to be abandoned. The whole group with the exception of Tennessee Coal, shows net losses. The latter stock, after dropping to 116½, rose strongly to 119, and held there. When the movement in the iron and steel stocks proved abortive the buils turned their attention to Brooklyn Rapid Transit, which was a favorite in speculation for the rest of the day. The movement in this stock was again directed against the very heavy short interest believed to exist in it, and the rapid advance induced large covering. When the rise had extended to above 90, enormous blocks were brought out, which made it difficult to sustain the price. This stock rose to 90½, yielded a point, railled again and yielded a small fraction. The New York traction group was strong in sympathy. The Leather stocks were also taken up for further aggressive advance, the common touching 32 and the preferred \$37\s. Sugarwas active and irregular, but shows a net gain. The Tobacco stocks were weak early, but railied later. There were isolated movements in Missouri, Kansas and Texas, Cleveland, Cincinnatiand Chicago, and St. Louis preferred. Malting preferred dropped 3 points.

Otherwise the trading was not very active and the movement of prices was narrow, net changes being small and mixed. Owing to the holiday in Lordand. The call money market worked appreciably during the afternon, having ruled

Inxed.

The call money market worked appreciably during the afternon, having ruled to 20 per cent. Large amounts were loaned at 6 per cent. before the close, and the rate fell to 5 per cent. The easier rate for money did not induce any large ventures on the long side in stocks, but the bears were manifestly uneasy and anxious to cover short lines before the stringency in money relaxes. To-day's advance in sterling exchange is believed to be evidence in a real relaxation in the money stringency and New York exchange at Chicago and St. Louis was strong to-day, showing a cessation of pressure from those points. As Boston, on the contrary, there was a sharp decline in New York exchange. Money continues to move to the South from New York and the sub-treasury is making drafts on the local banks.

The bond market was quiet, aside from an active demand for Standard Rope incomes and Kansas and Texas seconds. Total sales par value, \$2,705,000.

United States new 4's and old 4's registered advanced ½ in the bid price.

The total sales of stocks to-day were 624,400 shares.

Chicago, Nov. 1.—Wheat dropped over a cent to-day. Liquidation by demoralized longs, because of unexpected weakness at Liverpool, caused the slump.
